DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/03/10 has been entered.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, this claim is inaccurate since each pick supports only one target substrate. It appears "a target substrate" in line 1 should be --target substrates-- and "the target substrate" in line 8 should be --a separate one of the target substrates-- to clearly set forth that each pick supports a different substrate. Also one of the occurrences of "rotatable" in line 3 should be deleted. See claim 29, line 2, wherein "rotatable" appears only once.

Regarding claim 17, "a reflection member" in line 5 should be correlated with "a reflection member" in claim 16.

Regarding claim 19, "the illumination member" lacks a clear antecedent basis. It appears this element may be the same as "a light emitting portion" in claim 16.

Regarding claim 29, it has the same deficiencies as noted above for claim 1 with the exception of that in line 3 of claim 1.
